

CLASS PLACEMENT

Class placement is based on age, technique, progress, strength and attendance. Because it usually takes 2 to 3 years before the necessary skills are attained, and because there are only a few levels per age group, it is normal for a student to spend 1 to 3 years in each level. It is most important that each student be placed in the appropriate level and class. Sometimes it is necessary for a student to be moved into a different class, level, or more suitable genre, after registration has taken place. This will be done as soon as possible at the beginning of the year and will be discussed with the parent first.

Ballet is the foundation of all dance. It helps students further their strength, technique and helps them understand proper posture and placement. We strongly suggest that students take a Ballet class in conjunction with their other class/es. Some classes must take a Ballet class in conjunction (indicated as *italics (B)*) with their other class/es.

In addition to the companies, some classes must take 2 classes per week (indicated as *italics (2)*).

It is very important that each dancer is comfortable in their class/es so please don't hesitate to call with any questions or concerns regarding placement.

STUDIO 1
